

# SIAL Paris International Food Exhibition

Peruvian food products  
21-25 October, 2018

The Swiss Import Promotion Programme (SIPPO) is a well-established mandate of the State Secretariat for Economic Affairs (SECO), within the framework of its economic development cooperation. As of 2017, SIPPO is implemented by Swisscontact, a business-oriented Swiss foundation for international cooperation and development.

We work directly with Business Support Organizations (BSOs), including promotion boards and sector-wide associations, to support the expansion and quality of their export promotion services to their members and clients. Through the BSOs, export-ready companies gain access to customized export services such as market intelligence, capacity-building, networking and matchmaking.

PromPerú, Peru's Export and Tourism Promotion Commission, with headquarters in Lima, Peru, is a government agency connecting both public and private initiatives to create a competitive and diversified offer of products and services with the highest quality standards suitable for the international markets.

PromPerú carries out a wide range of activities related to trade and tourism promotion, focusing on those linked with the expansion of businesses in foreign markets, thus contributing to generate job opportunities, and to spread the image of Peru as an exporting country attractive tourism destination.

In the export sector, PromPerú acts as a key partner and adviser to potential and current exporters, organizing trade promotion and market intelligence activities, such as tradeshows, trade missions and market research studies. For more information please visit the website [www.promperu.gob.pe](http://www.promperu.gob.pe)

## Agro Fergi S.A.C.

8H027

### ABOUT THE COMPANY

Agro Fergi is a 100% family-owned business with more than five years in the market. Our main goal is to develop long term business with our clients by offering them top quality products. We currently export to over 48 countries.

### THE PRODUCTS WE OFFER

Among our products are chia, quinoa, oregano, amaranth, cañihua, broad beans, lima beans, black eye beans, canary beans, and pigeon peas.

### WHAT WE STAND FOR

We aim to be a reliable Peruvian supplier for our clients and aspire to be the main provider of quinoa and other Peruvian products while maintaining their high quality and value.

## Agrofino Foods S.A.C.

8H031

### ABOUT THE COMPANY

Agrofino Foods is dedicated to the export of high quality organic products from the Peruvian Andes, the jungle, and the coast. We believe that the tremendous health benefits of the vast number of products grown and produced in our country should be brought to world. We are a health-conscious company, which believes in quality rather than quantity. By working in direct contact with farmers, we provide our consumers with a product that follows fair trade practices and is 100% traceable.

### THE PRODUCTS WE OFFER

Our unique sales proposition has two specific characteristics: flexibility, and high quality standards. These allow us to deliver complex orders in the shortest possible time and service customers who place orders that contain a wide variety of products. Our products include chia, quinoa, Brazil nuts, cacao nibs, and goldenberries.

### WHAT WE STAND FOR

We aim to provide the world with a wide range of products grown and produced in Peru, and aspire to become a multinational Peruvian agriculture brand synonymous with superior service, and high-quality, healthy products.

## Agroindustrias Amazonicas S.A.

8G025

### ABOUT THE COMPANY

Agroindustrias Amazónicas is a worldwide pioneer in sacha inchi farming, research, and development. Founded in 2001, our entry into the international market is thanks to our research, our farming processes, and the marketing of our high-quality products.

### THE PRODUCTS WE OFFER

We specialize in organic, healthy, nutritional, and innovative high-quality products. We focus on sacha inchi products such as inca snacks, inca inchi oil, inca inchi powder, inca inchi chocolates, and inca shake breakfast.

### WHAT WE STAND FOR

Our goal is to be the leader in the world market for oils of excellence that have high protein and omega 3 content, and are extracted from sacha inchi using organic production. We are a company that protects the environment, supports a healthy diet, improves the quality of people's lives, and generates significant worldwide revenue that is fairly distributed.

## Alisur S.A.C.

8G033

### ABOUT THE COMPANY

Alisur is a company dedicated to the production and marketing of quinoa. Thanks to our policy of continuous improvement and our constant investment in technology, infrastructure, and human capital, we are the leaders in the export of quinoa.

### THE PRODUCTS WE OFFER

We produce white quinoa, red quinoa, black quinoa, tricolor quinoa, quinoa flakes, and quinoa flour.

### WHAT WE STAND FOR

We are a company that is dedicated to creating the maximum value for our suppliers, customers, collaborators and shareholders through high quality standards and continuous improvement activities.

We want to consolidate ourselves as the leading exporter of quinoa.

## Avendaño Trading Company S.A.C.

8H016

### ABOUT THE COMPANY

In partnership with producers, Avendaño Trading Company improves the cultivation of Andean grains and contributes to the development of the Peruvian agriculture sector. Thanks to our best practice selection and washing, we aim to exceed customer expectations by offering value-added food products.

### THE PRODUCTS WE OFFER

Quinoa, chia, amaranth, cacao powder, cacao nibs, lucuma powder.

### WHAT WE STAND FOR

Our main objective is to achieve complete customer satisfaction and develop a lasting relationship through quality service and products. We give the upmost priority to ensuring the quality and safety of our products for our customers.

## Bio Omegas

8H034

### ABOUT THE COMPANY

We are a Peruvian company focused on developing high-quality organic products with enormous health benefits. We cultivate these on our own land and also source from farmers' associations in the highlands and jungle of Peru.

### THE PRODUCTS WE OFFER

All our products are super foods with huge health benefits that are rich in Omega 3, 6 and 9. Bio Omegas specializes in the production of sacha inchi, chia oils and capsules, and a product called bionnaise, which is a vegan mayonnaise-type sauce that is a healthy alternative to traditional mayonnaise.

### WHAT WE STAND FOR

We aim to contribute to developing children's intelligence and improving health through the food we produce, and to provide the world with value-added high quality nutraceutical foods, in harmony with local communities and the environment.

We aspire to be a world-class company that exports to every corner of the world, leading and innovating in the field of sustainable Peruvian natural products.

## Blue Market Foods

8H032

### ABOUT THE COMPANY

Blue Market Foods is a Peruvian company dedicated to processing and marketing foods with high nutritional value aimed at the international market, such as legumes and Andean grains.

### THE PRODUCTS WE OFFER

Our products include beans and legumes, which are very rich in protein and fiber and low in fat, and Andean grains and Superfoods, such as quinoa, amaranth, chia, mote, and purple corn, which are high in antioxidants and essential nutrients. Our products are canned, and are delivered in bulk in 25 kg and 50 kg formats suitable for retail.

### WHAT WE STAND FOR

We are committed to our customers, to whom we offer products with high nutritional value that are grown in Peru's jungle and its northern and central regions.

## Caynarachi

8G014

### ABOUT THE COMPANY

Caynarachi is a division of Peru's largest producer of canned products. We have 25 years of experience in the provision of high quality fruits and vegetables. We own around 1000 hectares of cultivated palms and grow a native species known locally "Pijuayo" (Bactris gasipae) that can be harvested all year round. Our facilities are located just next to the farming areas, in north east of the region of San Martin.

### THE PRODUCTS WE OFFER

We offer heart of palm, natural, with fruits, and marinated. These are available as whole hearts, slices, and salad cuts. The presentations are of retail and food service size, in both jars and cans. We harvest and process on a daily basis, assuring the freshness of the raw material so that our clients enjoy our products in the most natural possible way.

### WHAT WE STAND FOR

We aim to bring the world closer to the Peruvian tropical region through our native vegetable products. We maintain 30% of the forest coverage on our land as a natural reserve. We have a genuine commitment to quality and food safety, producing healthy and safe products with fresh

raw materials under the strictest production processes. We guarantee our clients that the final customer will be fully satisfied.

## Cerro Verde

8H013

### ABOUT THE COMPANY

Our products are differentiated by their high quality. We use excellent fresh raw ingredients, collected every day in our own fields and we prepare them in the most natural way that retains all the properties, nutrients, aromas, and flavor. We prepare and market in a sustainable and effective manner a wide variety of high quality natural, nutritious and tasty products.

### THE PRODUCTS WE OFFER

We offer asparagus, artichokes, piquillo chilli, guindillas piparras, and anchovy.

### WHAT WE STAND FOR

We seek to provide a unique service following a business model known as value chain, which allows us to completely control our production, from crop planning through to product distribution, achieving maximum control over product quality and the ratio of quality to price.

We aim to be the leading producer of vegetable and fish preserves with a recognized brand in the international market.

## Cosecha de Oro

8H020

### ABOUT THE COMPANY

We are dedicated to developing innovative products and food solutions for final consumption and as ingredients for restaurants, hotels, and catering companies. Thanks to our quality, our personalized service, and our homemade flavors, we have become a prestige company and successfully positioned our Cosecha de Oro brand.

### THE PRODUCTS WE OFFER

Our products include natural beverages based on quinoa, maca, oats, pulps, purees, compotes, fruit jams, Peruvian desserts, concentrated fruit drinks, and canned fruits and vegetables. Our products are 100% natural, with no added flavoring or coloring. We work with fruits of Peruvian origin such as camu camu, lucuma, aguaymanto, cherimoya.

### WHAT WE STAND FOR

We aim to reliably satisfy the nutritional needs of our clients, in presentations and formats that are adapted to their needs, whilst developing our company through continual innovation.

Our future goal is to sustain our business in the long term and our leadership as a company that processes reliable and high quality foods based on management that is ethical and efficient.

## Danper Trujillo S.A.C.

8E026 / 8E028

### ABOUT THE COMPANY

We are a Peruvian-Danish joint venture with 20 years of success in the agroindustry. We aim to excel through developing our productive capacity to meet the needs of our clients throughout the world, all of whom appreciate the proven quality of our products. We have over 6500 workers, and 6000 hectares of cultivated fields located in Peru's north, on the southern coast, and in the central and southern highlands.

### THE PRODUCTS WE OFFER

We offer an ample array of products in the following categories: fresh, frozen, preserves and dry. Our fine vegetables include artichokes, green and white asparagus, Californian, red piquillo, cherry hot and capia pepper. Our fruits include mango, avocado, blueberries, goldenberries, Sugraone and Crimson grapes, papaya and Andean papaya. We have super grains such as chia, quinoa, and amaranth. Our gourmet products include pesto sauces, bruschettas, vinaigrette, salads, jams, tapenade, dips with quinoa, and meals (quinoa, farro and cauliflower). We also have organic products such as chia; amaranth; mangoes; peppers; Andean papaya, and; white, red, and black quinoa.

### WHAT WE STAND FOR

We aim to provide mankind with natural and nutritious meals produced to the highest quality, efficiency, and sustainability standards. We value

and foster the capacities of our human capital. We encourage the continuous improvement of our society. We generate value for our clients, associates, suppliers, and shareholders.

Our future goal is to be the most competitive sustainable and innovative company in the food industry globally by 2025.

## White Lion Foods

8H030

### ABOUT THE COMPANY

White Lion Foods was launched in 2012 in Peru and in 2015 started processing and exporting Peruvian Brazil nuts. Our main focus is quality. For us, quality consists of preserving the environment, having full product traceability, and high food safety standards. We strongly believe that quality will give us a competitive edge and enrich our business relationships.

### THE PRODUCTS WE OFFER

Our main product is Brazil nuts. It has become a flagship product for White Lion Foods, and we are constantly promoting it in various markets worldwide.

### WHAT WE STAND FOR

We aim to position White Lion Foods as a global producer of high quality food, and to contribute to the community development, education, and wellbeing programs across the region of Madre de Dios, where our factory is located.

## Frutosa - Frutos Tongorrape S.A.

5AMN103

### ABOUT THE COMPANY

Frutos Tongorrape S.A. began in early 2008 following years of experience in the fruit and food industry observing high standards of quality control and a commitment to contribute to the development of every person involved in its operations—from the fruit suppliers right through to our customers. The expertise of the shareholders assures quality products and a commitment to the environment. Our location is the key to our success: Tongorrape is a small village surrounded by organic mango fields (Kent, Haden, Edward and Chato varieties), passion fruit, banana, avocado, and a natural subtropical forest.

### THE PRODUCTS WE OFFER

Our products include physalis, banana IQF, avocado puree and IQF, organic and conventional frozen mango, and organic and conventional frozen passion fruit juice (single strength and concentrate).

### WHAT WE STAND FOR

We aim to supply frozen fruit with the best quality and safety standards, to contribute to the welfare and satisfaction of our customers, and to grow in a sustained and rational way, contributing to the development of the national industry.

We aspire to consolidate our competitiveness and sustainability through the effectiveness of our quality management system and the safety and efficiency of our processes, and to position ourselves amongst the best companies in the agroindustrial sector at the international market level.

## Pacific Fruit - Aseptic Peruvian Fruit

5AM096

### ABOUT THE COMPANY

Pacific Fruit offers pure pulp from the best selection of fruits harvested from the fertile soils of Peru. All our processes reflect our commitment to quality, health, and respect for the environment. Our crops come from seven different Andean zones of Peru, each with ideal characteristics for their cultivation. Our production and processing methods ensure that our fruit maintains its essential characteristics, including taste, texture, smell, and nutrients, without the need for refrigeration. Our entire process is subject to strict health standards, and we work to ensure that the pulp of our premium fruits preserves its dietary and health properties. We use best practices for respecting biodiversity, ecology, and sustainable development.

### THE PRODUCTS WE OFFER

Our products are 100% natural aseptic fruits puree and pulp with a shelf life of one year without refrigeration and preservatives. Our main fruits are mango (organic), passion fruit, pomegranate, golden pineapple, blueberry, goldenberry, and soursop. We have presentations of 3 kg, 5 kg, 20 kg, and 220 kg.

### WHAT WE STAND FOR

At Pacific Fruit we work in harmony with nature and are committed to sustainable development and environmental protection. We have policies

to care for water and land and to use energy efficiently. We also work to ensure our suppliers use natural methods to combat pests, without using pesticides.
